2N is the only certified intercom partner of Crestron to provide integrated door communication with the Crestron panels.

Integration benefits

- Intercom video calls on up to 16 Crestron touch screens

- 2N video intercoms are Rava® SIP compliant

- Users have the ability to silence specific zones where privacy may be a factor

- Possibility to add access modules like PIN codes, RFID, Bluetooth or fingerprint reader

- 2N video intercoms are instantly recognized and ready for configuration in Crestron HOME

- A custom programming option is also available for deployment of more advanced functionality.

Premium video intercom solution that seamlessly integrates with your home automation system.
